- Either 5 kg Sodium Chloride / NaCl (Art. nr. CW4096), or 25 kg Sodium Chloride / NaCl (Art. nr. CW4097)
- Chemical Safety Data Sheet
- Certificate of Analysis

3 STANDARDS

ASTM B117, ISO 9227

4 SPECIFICATIONS

For full product information please refer to the Chemical Safety Data Sheet.

5 PRECAUTIONARY MEASURES FOR SAFE HANDLING OF THE SUBSTANCE OR MIXTURE

- Wash hands and other exposed parts with a mild soap and water before eating, drinking, smoking or leaving work
- Ensure that there is good ventilation in the process area to prevent the formation of vapours

6 MEASURES TO CONTROL EXPOSURE

Personal protective equipment:	apply general industrial hygiene
Hands protection:	not required
Eye protection:	wear goggles at dust formation
Respiratory protection:	wear filter mask with filter type P2 at dust formation ensure a well-ventilated area
Other information:	do not eat, drink or smoke during use brush off contaminated clothing

7 USE

- Always replace plastic drum lid. Failure to replace the drum lid will result in the contents absorbing moisture and forming solid lumps.
- Always use a clean scoop.
- Due to the purity of the product and the absence of anti-caking agents the contents could form solid lumps. These lumps are easily reduced in size and will dissolve quickly in water.

8 SAFE STORAGE

- Keep the vats closed if they are not used
- Store only in the original packaging in a cool, well-ventilated place
- Warehouses and silos must comply with the local regulations
- Not suitable packaging material: steel and tin

9 DISCLAIMER

The right of technical modifications is reserved.
