CMC-KUHNKE Portable Beverage Can Saw PCS-1211

PCS-1211 Portable Beverage Can Saw for Precise Seam Inspection

Brought to you by CMC-KUHNKE, the PCS-1211 is a portable double-cut can saw designed for safe and efficient seam control. Lightweight yet robust, this device ensures precise cutting with minimal maintenance for years of reliable operation.

Precision Seam Inspection Made Easy

The PCS-1211 is specially engineered to cut beverage can seams effortlessly, allowing for high-quality inspections. Its two parallel blades cut across the diameter of the can, delivering an exact cross-section without distortion. The result is a clean, clear cut with minimal burrs for precise visualization and verification of can seams.

Safety-Focused Design

With a simple, ergonomic layout, the PCS-1211 prioritizes user safety. It protects hands from the blades and is equipped with a safety control button that must be engaged to operate the twin blades. Compact and safe, it's ideal for use in confined spaces.

Convenient, Low-Maintenance Operation

The PCS-1211 is designed for ease of use and minimal upkeep. Cleaning up sawdust is the primary maintenance task. The saw blades do not require greasing, but periodic checks of the blades, safety guard, and toothed belt tension are recommended for optimal performance. Blade changes are quick and straightforward, thanks to an easily accessible blade compartment, with detailed instructions provided in the user manual.

Reliable and Efficient

The PCS-1211 Portable Beverage Can Saw offers a safe, efficient, and durable solution for inspecting can seams, ensuring precise and reliable results with minimal effort.

Technical Specification:

Power:	35A
Motor:	220V
Weight:	11.0 kg (saw)
Dimensions	300 x 365 x 130 mm (L x B x H)
Work Plate:	300 x 95 mm, option reduced
Output:	600W
Blade:	80 x 22 x 0.5 mm HSS NIT
Speed level:	ca. 950 min ⁻¹
Cutting width:	14 mm

Features & Benefits:

- Supplied with four HSS blades
- Contained in a metal suitcase for easy transport
- Saw blade safety guard
- Safety control button for stopping
- Guiding rods for perfect cuts
- Simple ON / OFF switch
- Illustrated instruction manual
- Six-month warranty

Accessories:

Catalog Number	Article Description
----------------	---------------------

120 700:30	Carbide Saw Blades 5°, 280 Teeth
420 100:03/1	Abrasive Rubber Blocks
